Executive Summary

Skilled in Full-Stack development with expertise in building secure and scalable enterprise applications. Proficient in Python and teamwork with strong problem-solving abilities. Using my Internship Experience, I provide high-performance digital solutions that address real-world business challenges and drive organizational success. I am confident I'm a strong fit for this position and eager to contribute effectively.

Work Experience

Full Stack Developer | Mars Tech International (Pvt) Ltd | *Apr 2025 – Present*

Responsibilities

- Designed and developed full-stack web applications from concept to deployment.
- Built responsive and user-friendly interfaces using JavaScript and TypeScript.
- Developed backend services, databases, and RESTful APIs.
- Collaborated with teams to deliver high-quality software solutions.
- Tested, debugged, and optimized applications to improve performance and reliability.

Impact

- Delivered **5+** end-to-end software solutions, improving business operations and user engagement.
- Enhanced user experience through responsive design, increasing user satisfaction by **25%**.
- Improved backend and database performance, reducing response times by **40%**.
- Delivered **5+** secure, maintainable, and production-ready applications.
- Optimized system performance, improving overall efficiency by **20%**.

System Administrator | Mars Tech International (Pvt) Ltd | *Oct 2024 – Mar 2025*

Responsibilities

- Monitored and maintained servers, networks, and IT infrastructure to ensure smooth operations.
- Installed, configured, and updated operating systems, software, and hardware devices.
- Provided technical support and troubleshooting for system, network, and user issues.
- Managed user accounts, access permissions, and security policies.
- Performed routine system backups, maintenance, and performance monitoring.

Impact

- Improved system reliability, reducing downtime by **30%** through proactive maintenance.
- Enhanced network performance, increasing operational efficiency by **25%**.
- Resolved **200+** technical issues, improving user productivity and satisfaction.
- Strengthened system security, reducing security incidents by **20%**.
- Optimized system performance, improving resource utilization by **15%**.

Responsibilities

- Developed and executed digital marketing campaigns to increase brand visibility and engagement.
- Created engaging content for websites, social media platforms, and promotional campaigns.
- Managed WordPress websites, ensuring content updates and optimal performance.
- Monitored SEO performance and implemented strategies to improve search rankings.
- Analysed marketing data and campaign metrics to optimize digital marketing efforts.

Impact

- Increased brand awareness and engagement by **35%** through effective marketing strategies.
- Improved campaign performance, increasing conversion rates by **20%**.
- Strengthened customer loyalty, boosting engagement by **25%**.
- Enhanced website traffic by **40%** through SEO best practices.
- Contributed to business growth by increasing digital leads by **30%**.

Projects

Smart Waste Management System | Collaborative Full-Stack IoT Application

- Engineered a responsive dashboard for real-time tracking, route planning, and collection schedules.
- Developed RESTful APIs to ingest and parse simulated sensor data payload streams efficiently.
- Technologies: Node.js, Express, React, SQL, Git, REST APIs
- [View LinkedIn Post](#)
- [View GitHub Repository](#)

AgriRoute – SmartAgri Integrated Platform | Collaborative Enterprise Software

- Co-developed an integrated platform optimizing agricultural supply chain routes and logistics.
- Built dynamic components and database models to manage real-time inventory and logistics.
- Technologies: Java / C#, React, Relational Database Design, REST APIs, Git
- [View LinkedIn Post](#)
- [View GitHub Repository](#)

Perception Mapper AI | Collaborative Data-Driven AI Platform

- Architected an interactive analytics application to process and visualize complex data.
- Integrated Python data handling services with a custom frontend to showcase intelligence metrics.
- Technologies: Python, JavaScript, React, Data Science Basics, API Integration, Git

- [View GitHub Repository](#)

Education

- **Bachelor of Information Technology** | University of Moratuwa (2024 – Present)
- **Cyber Security Internship Training** | Mars Tech Campus (2023 – Present)
- **Artificial Intelligence Internship Training** | Mars Tech Campus (2023 – Present)
- **NVQ Level 4 - Computer Hardware Technician** | Insight Technology Campus (2023 – 2025)

Technical Skills

- **Languages:** JavaScript, TypeScript, Java, C#, C, Python
- **Frontend Technologies:** React, HTML, CSS, Bootstrap, Flutter, UI/UX Design
- **Backend & Frameworks:** Node.js, Express.js, RESTful APIs, .NET, ASP.NET Core, Spring Boot, Django
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools:** Git/GitHub, Docker, SSMS, Visual Studio Code, Visual Studio, IntelliJ

Core Software Engineering Simulations

- **Advanced Software Engineering** – Walmart Global Tech (via Forage) | [View Certificate](#)
- **Software Engineering** – Hewlett Packard Enterprise (via Forage) | [View Certificate](#)
- **Software Engineering** – JPMorgan Chase & Co. (via Forage) | [View Certificate](#)
- **Software Engineering** – Skyscanner (via Forage) | [View Certificate](#)
- **Software Engineering** – Electronic Arts (EA) (via Forage) | [View Certificate](#)
- **Software Engineering** – Wells Fargo (via Forage) | [View Certificate](#)
- **Front-End Software Engineering** – Skyscanner (via Forage) | [View Certificate](#)
- **Introduction to Software Engineering** – Commonwealth Bank (via Forage) | [View Certificate](#)

Technical Certifications

- **Frontend Developer (React)** – HackerRank Verified Role | [View Certificate](#)
- **Python (Basic)** – HackerRank Verified Skill | [View Certificate](#)
- **Java (Basic)** – HackerRank Verified Skill | [View Certificate](#)
- **JavaScript (Basic)** – HackerRank Verified Skill | [View Certificate](#)
- **CSS (Basic)** – HackerRank Verified Skill | [View Certificate](#)
- **Building Angular and ASP.NET Core Applications** – LinkedIn Learning | [View Certificate](#)
- **React: Design Patterns** – LinkedIn Learning | [View Certificate](#)
- **Python for Beginners** – University of Moratuwa (CODL) | [View Certificate](#)

Languages

- **English:** Professional Working Proficiency
- **Tamil:** Native or Bilingual Proficiency
- **Sinhala:** Professional Working Proficiency
